

Balbec brings the healthful benefits of perishable skincare inspired by traditional cultures into everyday health and beauty regimes. We use nutrient-dense ingredients that are raw, organic, live, wildcrafted, and cultivated without chemicals.

BENTONITE CLAY & YOGURT CLEANSER

with coriander, frankincense & palmarosa

Bentonite Clay is used to absorb toxins, heavy metals, and impurities from skin.

Live Organic Yogurt smooths skin through mild exfoliation while imparting probiotic benefits to the epidermis.

Antibacterial **Coriander** helps to balance and soothe the skin through its anti-inflammatory properties.

Frankincense is wonderful for aging skin because it is tonic and stimulates cell regeneration. It is known for its abilities to slow and deepen breath and has long been used for meditation and to calm the mind.

Hydrating **Palmarosa** balances sebum production, aids in the healing of infections, and stimulates cell regeneration.

Balbec cleansers are a trifecta of organic live yogurt, mineral-rich clays, and organic and wildcrafted aromatherapeutic essential oils. Free of substances that strip the skin of its fine lipid layer, Balbec cleansers are gentle. They detoxify the skin of dirt, debris, metals, and dead cells, leaving your skin comfortable, clean, and balanced. Each cleanser is hand blended and ideal for daily use. For the full experience, follow with a Balbec hydrosol and facial oil.

Balbec products are made with ingredients that are certified organic, wildcrafted, or cultivated without chemicals. We source ingredients through channels which are committed to sustainable practices and fair worker compensation. Each product is free of parabens, phthalates, sulfates, gluten, and chemically derived preservatives.

Please refrigerate cleansers and hydrosols and enjoy by expiration date.

BENTONITE CLAY & YOGURT CLEANSER

with coriander, frankincense & palmarosa

Please take desired amount of cleanser with wooden spoon and massage into skin using circular motions. Rinse well using warm water.
Please avoid using a metal spoon with the cleanser as metal disrupts the natural electrical charge of the clay.

<i>Ingredient</i>	<i>Properties</i>	<i>Benefits</i>	<i>Origin</i>	<i>Method of Extraction</i>
Yogurt*	Contains: lactic acids and probiotics Cleansing and moisturizing Lactic acids gently exfoliate	Sunburns Dull skin Enlarged pores	USA	Pasteurized
