

Balbec brings the healthful benefits of perishable skincare inspired by traditional cultures into everyday health and beauty regimes. We use nutrient-dense ingredients that are raw, organic, live, wildcrafted, and cultivated without chemicals.

FRENCH GREEN CLAY & YOGURT CLEANSER

with matcha, frankincense & geranium

French Green Clay tones and clarifies the skin, improves circulation, and helps to tighten pores.

Live organic yogurt smooths skin through mild exfoliation while imparting probiotic benefits to the epidermis.

Matcha is anti-inflammatory and protects against bacteria and infection. Its high catechin content makes it a strong anti-oxidant.

Frankincense is wonderful for aging skin because it is tonic and stimulates cell regeneration. It is known for its abilities to slow and deepen breath and has long been used for meditation and to calm the mind.

Geranium is tonic and uplifting. It stimulates the lymph system and aids with cell regeneration. Geranium improves circulation and balances skin which is excessively oily or dry.

Balbec cleansers are a trifecta of organic live yogurt, mineral-rich clays, and organic and wildcrafted aromatherapeutic essential oils. Free of substances that strip the skin of its fine lipid layer, Balbec cleansers are gentle. They detoxify the skin of dirt, debris, metals, and dead cells, leaving your skin comfortable, clean, and balanced. Each cleanser is hand blended and ideal for daily use. For the full experience, follow with a Balbec hydrosol and facial oil.

Balbec sources ingredients through channels which are committed to sustainable practices and fair worker compensation. Each product is free of parabens, phthalates, sulfates, gluten, and chemically derived preservatives.

Please refrigerate cleansers and hydrosols and enjoy by expiration date.

FRENCH GREEN CLAY
& YOGURT CLEANSER

with matcha, frankincense & geranium

Please take desired amount of cleanser with wooden spoon and massage into skin using circular motions. Rinse well using warm water.
Please avoid using a metal spoon with the cleanser as metal disrupts the natural electrical charge of the clay.

<i>Ingredient</i>	<i>Properties</i>	<i>Benefits</i>	<i>Origin</i>	<i>Method of Extraction</i>
Yogurt*	Contains lactic acids and probiotics Cleansing and moisturizing Lactic acids gently exfoliate	Sunburns Dull skin Enlarged pores	USA	Pasteurized
